Taking Military Ceneus Has Let Mayor Dunn's Committee Know Who Are the Real Americans.

As the work of the military census was cleared up Mayor Dunn, chairman of the executive committee issued a statement to the people of Willimantic and the town of Windham Wednesday in which he said in substance: To the people of Willimantic and town of Windham:

I desire to extend my most sincere thanks to all those who have been so kind as to volunteer and give their services to the military enrollment, in compliance with Governor Marcus H. Holcomb's request. First Selectman Ernest P. Chesebro and A. Linn Weatherhead, who were associated with me in this work, did noble servec giving much of their time to the worthy cause.

Likewise I feel most grateful to all others who assisted in the making of a thorough enumeration of the people of the community in compliance with Governor Holcomb's request. The task has not been exceedingly pleasant but all of those connected with the movement were prompted by a public spirit which keenly demonstrated the fact that they were deeply interested in the affairs of the state of Connecticut.

Windnam has never fallen by the

in the affairs of the state of Connecticut.

Windnam has never fallen by the wayside, in fact Windnam has always been a leader rather than a follower in public movements. The taks of completing the military enrollment is now completed. Much praise must be extended to those kind men who generously gave their spare time to the task of taking the enumeration under what might be called rather delicate conditions. Yet Windham has done its proper share of work in this matter and the greatest portion of the praise rests on the kind and most patriotically disposed men who left their daily occupations to respond to the call of Governor Marcus H. Holcomb, considering that it was their public duty to act.

It was most pleasing to me to real-

It was most pleasing to me to realize that so many Willimantic men were so keenly disposed in this matter and I deeply appreciate all that has been done. It would be beyond me to enumerate all those who worked for the kood cause because there were so many of them. But in the active connection that I have had with this movement I have personally become aware of those who are public spirited in the community. This has given me an occasion to see who they were who would do anything at any sacrifice for their state and country. I who would do anything at any sacrifice for their state and country. I am most pleased with the outcome of the affair and with pleasure that Willimantic and Windham have many men anxious to do all they can for their state and for their town. Further state and for their town. Further state and for their town. thermore they are willing to do much more for their country if the time comes. The military enumeration in Windham is now completed. I am exceedingly pleased because of the fact that Windham has once more demonstrated its utmost interest in the affairs of the state of which it is apart. In closing I desire to extend in the name of Messrs. Chesbro and Weatherhead and myself, our sincere thanks for the fine work done by the enumerators and others connected with the work of the military census lureau in this city. Likewise I desire in the name of the committe to extend to the Chamber of Commerce of the city of Willimantic our sincere thanks for the use of the Chamber of Commerce rooms. hermore they are willing to do much

A telephone message was received by the authorities Tuesday evening in regard to the dynamite storehouse of the Jordan Brothers, situated on High street. Some one in the vicinity of the building stated that suspicious characters had been seen about the building in the past few days and that automobiles had been heard to go by there late at night. The people living in the vicinity of the building were getting a little worried over the prospect of either being blown up or having someone steal enough of the explosive to do considerable damage. Officials called up about the matter thought that the informer had been influenced by the state of affairs but the former was assured that the seeing the former was assured that the seeing of men about the building was a fact. It is not known what will be done in the matter other than an investigation

Repairs to Highway. In an effort to make the roads about the country, especially the road to Norwich, safer and easier for travel they have been scraped and in some places filled in. The main road between Norwich and this city has been in bad condition for some time. The part of the road from the foot of Coolley Hill to South Windham was next to impassable.

Enlistments Numerous.

Enlistments Numerous.

The work of getting the military census for the town of Windham is about cleared up and now all energy is devoted to the recruiting of the home guard for this city. This latter work is going along very well in the opinion of the recruiting officers who have received about thirty enlistments. It is now thought that Willimartic will have a good sized company to represent it as the home guard. Many of the applicants have already seen services either in the army of militia while some have served under foreign flags. One of the most patrictic in the city is Samuel Chesbro, the former druggist who, instead of enlisting in the home guard has signified his intentions of going out with Company L if they are called as pharmacist. Mr. Chesbro is of the opinion that his services will be better spent in giving his time to the trade he has followed for many years and is so doing help out the company with services that are difficult to get.

Tenants for Forty Years.

Crow blackbirds have arrived in considerable numbers and are looking two bookcases in the workshap are over their old tenements in the big pines in Daniel Phillips' yard. It is and one will be put into one of the pines in Daniei Philips yard. It is here they have nested for years each season, in fact ever since the trees were tall enough. Forty years would not cover it. The owners of the prop-erty do not object strenuously, yet the grackles do a lot of talking all sum-mer very early in the morning, Sunday not excepted.

Doctor Tells How To Strengthen Eyesight 50 per cent In One Week's Time in Many Instances

Filled and Use at Home

Philadelphia, Pa. Do you wear glasses? Are you a victim of eye strain or other eye weaknesses? If so, you will be glad to know that according to Dr. Lewis there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says, after trying it: "I was almost blind; could not see to read at all. Now I can read everything without any glasses and my eyes do not water any more. At lady who used it says: "The atmosphere seemed fully; now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can even read fine print without glasses." It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble.
